PATENT COOPERATION TREATY

From the INTERNATIONAL BUREAU

Tsuchiura-shi, Ibaraki 3000847

JAPON

NOTIFICATION OF TRANSMITTAL OF COPIES OF TRANSLATION OF THE INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (CHAPTER I OR CHAPTER II OF THE PATENT COOPERATION TREATY)

(PCT Rules 44bis.3(c) and 72.2)

RECEIVED WITH THANKS JAN 23, 2007 SHIMIZU, Hatsushi Kantetsu Tsukuba Bldg. 6F SHIMIZU PATEN 1-1-1, Oroshi-machi OFFICE

Date of mailing (day/month/year) 11 January 2007 (11.01.2007)	
Applicant's or agent's file reference D3-X0311P	IMPORTANT NOTIFICATION
International application No. PCT/JP2005/004485	International filing date (day/month/year) 15 March 2005 (15.03.2005)
Applicant DN	AVEC RESEARCH INC. et al

l.	Transmittal	of the	translation	to the	applicant.	
----	-------------	--------	-------------	--------	------------	--

The International E	Bureau transmits herewith a copy of the English translation of the international prelimin	nary report on
patentability (Chap	oter I).	

The International Bureau transmits herewith a copy of the English translation of the international preliminary report on patentability (Chapter II).

Transmittal of the copy of the translation to the designated or elected Offices.

The International Bureau notifies the applicant that copies of that translation have been transmitted to the following designated or elected Offices requiring such translation:

EP, KR

The following designated or elected Offices, having waived the requirement for such a transmittal at this time, will receive copies of that translation from the International Bureau only upon their request:

AE, AG, AL, AM, AP, AT, AU, AZ, BA, BB, BG, BR, BW, BY, BZ, CA, CH, CN, CO, CR, CU, CZ, DE, DK, DM, DZ, EA. EC, EE, EG, ES, FI, GB, GD, GE, GH, GM, HR, HU, ID, IL, IN, IS, JP, KE, KG, KP, KZ, LC, LK, LR, LS, LT, LU, LY, MA, MD, MG, MK, MN, MW, MX, MZ, NA, NI, NO, NZ, OA, OM, PG, PH, PL, PT, RO, RU, SC, SD, SE, SG, SK, SL, SM, SY, TJ, TM, TN, TR, TT, TZ, UA, UG, US, UZ, VC, VN, YU, ZA, ZM, ZW

3. Reminder regarding translation into (one of) the official language(s) of the elected Office(s).

The applicant is reminded that, where a translation of the international application must be furnished to an elected Office, that translation must contain a translation of any annexes to the international preliminary report on patentability (Chapter II).

It is the applicant's responsibility to prepare and furnish such translation directly to each elected Office concerned within the applicable time limit (Rule 74.1). See Volume II of the PCT Applicant's Guide for further details.

The International Bureau of WIPO 34, chemin des Colombettes 1211 Geneva 20, Switzerland

Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

Factor in Cell-conditioned Medium and Human Plasma," Journal of Biological Chemistry, 1993, Vol. 268, No. 13, pages 9621 to 9628

Document 5: WO 2003/072704 A2 (Ribozyme Pharmaceuticals, Inc.), 04 September 2003

Document 6: WO 2003/029475 Al (DNAVEC Research Inc.), 10 April 2003

Explanations

The inventions set forth in claims 9 and 10 lack novelty in the light of documents 1 to 3 cited in the international search report.

Document 1 indicates that PDGF- α receptors were detected in melanoma cells from the human malignant melanoma cell line HTZ19; indicates that the administration of PDGF-AA homodimers enhanced the cell proliferation of HTZ19 melanoma cells; indicates that antisense phosphorothioate-oligodeoxynucleotides (S-ODN's) specifically targeted against PDGF-A-chain mRNA reduce the cell proliferation of HTZ19 melanoma cells; and suggests that the PDGF-AA homodimer is an autocrine growth factor of HTZ19 melanoma cells.

Meanwhile, document 2 indicates that the antisense nucleotide and derivatives thereof which hybridize with a domain in the mRNA and/or DNA that encodes PDGF-A are useful for the treatment and/or prevention of tumors.

Furthermore, document 3 indicates that inhibitors capable of inhibiting the proprotein convertases (PCs) that are associated with the conversion of Pro-PDGF-A into PDGF-A, which contributes to the formation of tumors, may constitute a novel drug for the treatment of

International application No.
PCT/JP2005/004485

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

tumors induced by PDGF-A; likewise, said document also indicates that targeting PDGF-A cleavage may provide a pharmacological complement that could be effective in the treatment of malignant tumors induced by PDGF.

The inventions set forth in claims 10 to 17 do not involve an inventive step in the light of documents 1 to 6 cited in the international search report.

Document 4 presents secretory proteins that bind to PDGFR α , and describes a technique for adjusting the responsiveness of said proteins to PDGF.

Meanwhile, document 5 presents the siRNAs of the PDGFR gene and the PDGFR α gene, while also indicating that said siRNAs are effective in the treatment of various tumors.

Furthermore, document 6 indicates that the Sendai virus vector is used as an immunological virus vector against infectious diseases or cancer, and said vector is introduced into dendritic cells.

It is common practice for a person skilled in the art to select specific active components, vectors and cells that are appropriate for use in a pharmaceutical preparation and to determine the specific type of tumor to be treated by means of said pharmaceutical preparation after consideration of the purpose thereof. Such being the case, it is considered to have been easy for a person skilled in the art to configure the inventions set forth in claims 10 to 17 by specifying specific combinations of the abovementioned items.

Supplemental Box Relating to Sequence Listing					
Continuation of Box No. 1, item 2:					
With regard to any nucleotide and/or amino acid sequence disclosed in the international application and necessary to the claimed invention, this report was established on the basis of:					
a. type of material a sequence listing table(s) related to the sequence listing					
b. format of material in written format in computer readable form					
c. time of filing/furnishing contained in the international application as filed filed together with the international application in computer readable form furnished subsequently to this Authority for the purposes of search and/or examination received by this Authority as an amendment* on					
2. In addition, in the case that more than one version or copy of a sequence listing and/or table(s) relating thereto has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.					
3. Additional comments:					
* If item 4 in Box No. I applies, the listing and/or table(s) related thereto, which form part of the basis of the report, may be marked "superseded."
